SUBJECT INDEX

Academic nursing clinic, impact on vulnerable populations, 60
Acetaminophen, for hip fractures, 211
Activities of daily living, dependency in, in hip fractures, delirium risk in, 75
Acupressure bands, for postoperative nausea and vomiting, after gynecologic surgery, 256
Adherence, to antihypertensive therapy, in African Americans, 266
Administrative data sets, large, in nursing research, 205
Advance directives, written, content evaluation of, 65
African Americans
  antihypertensive use in, 266
  inner resources of, in breast cancer, 236
Alternative medicine, for cancer
  foot reflexology, 284
  in Taiwan, 245
Analgesia, for hip fractures, 211
Anemia, in hip fractures, 75
Anesthesia, quality of care in, patient vs. nurse perceptions, 29
Antiemetics, for postoperative nausea and vomiting, after gynecologic surgery, 256
Antihypertensives, adherence to, in African Americans, 266
Anxiety, in parents of spinal surgery patients, 228
Art, as conversation instrument, in nursing homes, 184
Attitudes, in western New York registered nurse labor market, 144
Audience, as criterion, in quality improvement vs. research, 2

Back pain, research on, subject recruitment for, 46
Basic Knowledge Assessment Tool, 70
Benzodiazepines, as fall risk factors, 9
Blood pressure, antihypertensive use and, in African Americans, 266
Breast cancer
  inner resources in, ethnic differences in, 236
  survivors of, education and support needs of, 103
Brislin's model of translation, used in chronic heart failure questionnaire into Chinese, 278

Cancer
  advance directives in, content evaluation of, 65
  breast, inner resources in, ethnic differences in, 236
  in children, parental response to, in Taiwan, 245
  pain management in, foot reflexology for, 284
  survivors of, education and support needs of, 103
Cardiopulmonary resuscitation, in advance directives, 65
Caregivers
  antihypertensive use and adherence among, in African Americans, 266
  female, smoking behavior in, 156
  of schizophrenic patients, in Korea, 110
  of stroke survivors, quality of life of, 126
Catheters, urinary, in hip fractures, delirium risk in, 75
Cervical dysplasia, chemoprevention clinical trials for, feedback on, 22
Chemoprevention, of cervical dysplasia, clinical trials for, feedback on, 22
Childbirth, fatigue after, self-management of, 38
Chinese language, chronic heart failure questionnaire translation into, 278
Clinical studies
  cervical dysplasia chemoprevention, feedback on, 22
  recruitment for
    challenges in, 46
    elderly persons, 118
    minorities, 189
Codeine, for hip fractures, 211
Coherence, sense of, in breast cancer survivors, ethnic differences in, 236
Cold therapy, for pain management, in hip fractures, 211
Communication, in nursing homes, paintings as instruments for, 184
Comorbid conditions, in hip fractures, delirium risk in, 75
Compliance, with antihypertensive therapy, in African Americans, 266
Confusion
  as fall risk factor, 9
  in hip fractures, risk for, 75
Conversation, in nursing homes, paintings as instruments for, 184
Coping
  by family, with schizophrenia, in Korea, 110
  by parents
    of cancer patients, in Taiwan, 245
    of spinal surgery patients, 228
Costs, of academic nursing clinic for vulnerable populations, 60
Courtesy, in perioperative care, patient vs. nurse perceptions, 29
Cultural factors
  in caregiving, 266
  in coping with child's cancer, in Taiwan, 245
  in recruitment for clinical studies, 189
  in tobacco beliefs, 93
  in translating chronic heart failure questionnaire into Chinese, 278

Data analysis, large administrative data sets in, 205
Data source criterion, in quality improvement vs. research, 2
Death and dying, in ventilator withdrawal, family preparation for, 85
Decision making
  diagnostic, nursing expertise and information structure in, 287
  on hospital discharge referral, 134
  representativeness heuristic in, 201
Delirium, in hip fractures, risk for, 75
Demographics
  advance directives and, 65
  in participation in clinical trials, 22
  in tobacco beliefs, 93
  in western New York registered nurse labor market, 144
Denial, by parents of cancer patients, 245

Depression
as fall risk factor, 9
research on, ethical considerations in, 53
Diabetic coma, in hip fractures, 75
Diagnosis
decision making in, nursing expertise and information structure in, 287
heuristic-based, 201
Discharge planning, referral decision making in, 134
Disorientation, as fall risk factor, 9
Dizziness, as fall risk factor, 9
Droperidol, for postoperative nausea and vomiting, after gynecologic surgery, 256
Drugs
as fall risk factors, 9
side effects of, in hip fractures, 75

Economic issues, in western New York registered nurse labor market, 144
Editorials
commercialization of research, 133
Harriet Werley tribute, 1
learning from mistakes, 73
manuscript submission, 209
Education
nursing
on evidence collection in sexual assault, 173
smoking behavior in, 164
patient and family
cancer survivors, 103
on perioperative care, patient vs. nurse perceptions, 29
on post-partum fatigue, 38
on tobacco use cessation, 93
on withdrawal from ventilation, 85
Elderly persons
cancer survivors, education and support needs of, 103
conversation with, paintings as instruments for, 184
hip fractures in
delirium risk in, 75
pain management in, 211
recruitment for clinical studies, 118
Elimination, alterations of, as fall risk factor, 9
Employment issues, in western New York registered nurse labor market, 144
End of life care, advance directives for, content evaluation of, 65
Environment
in perioperative care, patient vs. nurse perceptions, 29
tobacco use and, 93
after ventilator withdrawal, 85
Errata
editorial on, 73
February 2003 issue, p. 9, 208
Ethical issues, in depression identification, 53
Ethnic factors
in breast cancer survivor inner resources, 236
in recruitment for clinical studies, 189
Experience, for diagnostic decision making, 287

Falling, risk for, 9
Family. *See also* Parents
preparation of, for withdrawal from ventilator support, 85
[Family. *See also* Parents]
of schizophrenic patients, in Korea, 110
Fatigue, post-partum, self-management of, 38
Fentanyl, for hip fractures, 211
Foot reflexology, for cancer pain, 284
Forensic nursing, in sexual assault, 173
Fractures, hip
delirium risk in, 75
pain management in, 211
Friendliness, in perioperative care, patient vs. nurse perceptions, 29

Gender
as fall risk factor, 9
in western New York registered nurse labor market, 144
Get-up-and-go test, for fall risk evaluation, 9
Gynecologic surgery, postoperative nausea and vomiting in, 256

Health and Psychosocial Instruments, 70
Health Insurance Portability and Accountability Act, 291
Heart failure
chronic, questionnaire for, translation into Chinese, 278
in hip fractures, 75
Hendrich Fall Risk Model, validation of, 9
Heuristics, diagnosis based on, 201
Hip fractures
delirium risk in, 75
pain management in, 211
HIPAA (Health Insurance Portability and Accountability Act), 291
Hope, in breast cancer survivors, ethnic differences in, 236
Humor, in perioperative care, patient vs. nurse perceptions, 29
Hydration, artificial, in advance directives, 65
Hydrocodone, for hip fractures, 211
Hypertension, treatment of, adherence to, in African Americans, 266
Hysterectomy, postoperative nausea and vomiting in, 256

Iatrogenic events, in hip fractures, delirium risk in, 75
Immobility, in hip fractures, delirium risk in, 75
Incontinence, as fall risk factor, 9
Information structure, for diagnostic decision making, 287
Inner resources, in breast cancer survivors, ethnic differences in, 236
Institutional review boards, HIPAA and, 291
Insurance, health, portability of, HIPAA and, 291
Intelligence, in perioperative care, patient vs. nurse perceptions, 29
Intensive care unit, ventilator support withdrawal in, family preparation for, 85
Interventions, as criteria, in quality improvement vs. research, 2

Korea, families of schizophrenic patients in, 110

Life support, withdrawal from, family preparation for, 85
Living wills, written, content evaluation of, 65

Malnutrition, in hip fractures, delirium risk in, 75
Massage, for pain management, in hip fractures, 211
Meperidine, for hip fractures, 211

Metastasis, from cancer, pain in, foot reflexology for, 284
Minority population, recruitment for clinical studies, 189
Morphine, for hip fractures, 211

Nalbuphine, for hip fractures, 211
Nausea and vomiting, postoperative, in gynecologic surgery, 256
Nicotine addiction, beliefs about, in Appalachians, 93
Nonsteroidal anti-inflammatory drugs, for hip fractures, 211
Nursing homes
  clinical study recruitment in, 118
  paintings as communication instruments in, 184
Nursing Practice Questionnaire, 70
Nursing process, in perioperative care, patient vs. nurse perceptions, 29
Nursing shortage, western New York labor market and, 144
Nursing students, smoking behavior in, 164
Nutrition, artificial, in advance directives, 65

Opioids, for hip fractures, 211
Optimism, in parents of spinal surgery patients, 228
Outcomes
  of academic nursing clinic for vulnerable populations, 60
  discharge referral impact on, 134
  patient safety, nursing services for, 131
Oxycodone, for hip fractures, 211

Pain
  back, research on, subject recruitment for, 46
  in hip fractures, delirium risk in, 75
Pain management
  in advance directives, 65
  cancer, foot reflexology for, 284
  in hip fractures, 211
  in perioperative care, patient vs. nurse perceptions, 29
Paintings, as conversation instruments, in nursing homes, 184
Parents
  of cancer patients, coping and response of, in Taiwan, 245
  of spinal surgery patients, anxiety and coping in, 228
Patient-controlled analgesia, for hip fractures, 211
Patient Self Determination Act, advance directives in, content evaluation of, 65
Pediatric patients
  cancer in, parental response to, in Taiwan, 245
  spinal surgery in, parents' anxiety and coping in, 228
Perioperative care, quality of, patient vs. nurse perceptions, 29
Pneumonia, in hip fractures, 75
Positioning, for pain management, in hip fractures, 211
Post-partum fatigue, self-management of, 38
Postoperative care, after gynecologic surgery, nausea and vomiting reduction in, 256
Preconditions, in perioperative care, patient vs. nurse perceptions, 29
Pressure relief, for pain management, in hip fractures, 211
Privacy rules, in HIPAA, 291
Propoxyphene, for hip fractures, 211
Prostate cancer, survivors of, education and support needs of, 103
Psychiatric disorders
  family burden in, 110
  with hip fractures, delirium risk in, 75
Psychologic issues
  in breast cancer survivors, 236
  in child's cancer, in Taiwan, 245
  in discharge referral, 134
  in parents of spinal surgery patients, 228
  in tobacco use in Appalachians, 93

Quality
  of academic nursing clinic for vulnerable populations, 60
  of perioperative care, patient vs. nurse perceptions, 29
Quality improvement, vs. research, 2
Quality of life, for stroke caregivers, 126

Reality, confrontation of, by parents of cancer patients, 245
Recovery room, care in, patient vs. nurse perceptions, 29
Recruitment, of research subjects, 46
Referral, in discharge planning, 134
Reflexology, foot, for cancer pain, 284
Religion, importance of, in terminally ill persons, 196
Representativeness heuristic, in decision making, 201
Research
  academic nursing clinic impact, 60
  antihypertensive use in African-Americans, 266
  anxiety in parents of spinal surgery patients, 228
  cancer survivors support needs, 103
  cervical dysplasia chemoprevention clinical trials, 22
  commercialization of, 133
  death in ventilator support withdrawal, 85
  delirium risk in hip fracture, 75
  ethical considerations in depression, 53
  fall risk model, 9
  families of schizophrenic patients, 110
  forensic nursing in sexual assault, 173
  Health Insurance Portability and Accountability Act effect on, 291
  heuristic-based diagnosis, 201
  hospital discharge referral, 134
  instruments for, evaluation of, 70
  large administrative data sets in, 205
  nausea and vomiting after gynecologic surgery, 256
  pain management in hip fractures, 211
  parental response to child's cancer, 245
  patient safety, nursing services in, 131
  perioperative care quality, 29
  post-partum fatigue, 38
  vs. quality improvement, 2
  quality of life for stroke caregivers, 126
  recruitment for clinical studies, 189
  resources of breast cancer survivors, 236
  smoking behavior in female caregivers, 156
  smoking behavior in nursing students, 164
  spiritual assessment, 196
  subject recruitment for, 46
  tobacco beliefs in Appalachians, 93
  visual art in nursing homes, 184
  western New York registered nurse labor market, 144
Risk
  as criteria, in quality improvement vs. research, 2
  of falling, model for, 9

Safety, patient, nursing services for, evaluation of, 131
Salicylates, for hip fractures, 211
Schizophrenia, family burden in, 110
Sedatives, for hip fractures, 211
Self-Regulation Theory, in family preparation for ventilator withdrawal, 85
Sense of coherence, in breast cancer survivors, ethnic differences in, 236
Sepsis, in hip fractures, 75
Sexual assault, forensic nursing in, 173
Smoking
  among female caregivers, 156
  among nursing students, 164
  beliefs about, in Appalachians, 93
Social factors, in tobacco use, in Appalachians, 93
Spinal surgery, in pediatric patients, parents' anxiety and coping in, 228
Spiritual assessment, in life-threatening illness, 196
Spiritual perspective
  of breast cancer survivors, ethnic differences in, 236
  of parents of cancer patients, 245
Stress
  in nursing students, smoking behavior and, 164
  response to, antihypertensive use and, in African Americans, 266
Stroke
  caregivers of, quality of life in, 126
  in hip fractures, 75
Students, nursing, smoking behavior in, 164
Support networks, for cancer survivors, 103
Surgery, spinal, in pediatric patients, parents' anxiety and coping in, 228

Taiwan, parental response to child's cancer in, 245
Terminal illness
  advance directives in, content evaluation of, 65
  spiritual assessment in, 196
Thoroughness, in perioperative care, patient vs. nurse perceptions, 29
Tiredness Management Guide, for post-partum fatigue, 38
Tobacco. *See also* Smoking
  beliefs about, in Appalachians, 93
Tramadol, for hip fractures, 211
Translation, of chronic heart failure questionnaire into Chinese, 278
Trustworthiness, in perioperative care, patient vs. nurse perceptions, 29

Unionization, of nurses, 144
Urinary infections, in hip fractures, 75

Ventilation
  in advance directives, 65
  withdrawal from, family preparation for, 85
Vertigo, as fall risk factor, 9
Visual art, as conversation instrument, in nursing homes, 184
Vomiting, postoperative, in gynecologic surgery, 256

Withdrawal, from ventilation, family preparation for, 85
